Functional Currency

The subsidiary's functional currency is the U.S. dollar. As a result, the financial statements of the subsidiary have been remeasured from Mexican pesos into U.S. dollars using (i) current exchange rates for monetary asset and liability accounts, (ii) historical exchange rates for nonmonetary asset and liability accounts, (iii) historical exchange rates for revenues and expenses associated with nonmonetary assets and liabilities and (iv) the weighted average exchange rate of the reporting period for all other revenues and expenses. The resulting remeasurement loss is recorded in other comprehensive (loss) income.

Current and historical exchange rates are not indicative of what future exchange rates will be and should not be construed as such.

Relevant exchange rates used in the preparation of the financial statements of the subsidiary are as follows for the six months ended June 30, 2006 (denoted in Mexican pesos per one U.S. dollar):

	<u>2006</u>
Current exchange rate at June 30,	Ps. 11.4009
Weighted average exchange rate for the six months ended June 30,	Ps. 10.8784

Reclassification

Certain reclassifications, which have no effect on net income (loss), have been made in the prior period financial statements to conform to the current presentation. Specifically, we have reclassified approximately \$13,000 out of Deposits and into Other Receivables, net, relating to the Mexican value-added tax paid on the La Millionaria project.

Earnings per Share

In February 1997, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 128 *Earnings Per Share* which requires the Company to present basic and diluted earnings per share for all periods presented. Basic earnings per share is computed as net income divided by the weighted average number of common shares outstanding for the period. Diluted earnings per share reflects the potential dilution that could occur from common shares issuable through stock options, warrants, convertible debt and other convertible securities.

The following table reconciles basic earnings per share and diluted earnings per share and the related weighted average number of shares:

Recent Accounting

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements" (SFAS 157). SFAS 157 provides guidance for using fair value to measure assets and liabilities. SFAS 157 addresses the requests from investors for expanded disclosure about the extent to which companies measure assets and liabilities at fair value, the information used to measure fair value and the effect of fair value measurements on earnings. SFAS applies whenever other standards require (or permit) assets or liabilities to be measured at fair value, and does not expand the use of fair value in any new circumstances. SFAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007 and will be adopted by the Company in the first quarter of fiscal year 2009. We do not expect that the adoption of SFAS 157 will have a material impact on our financial condition or results of operations.

In February 2007, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities - Including an amendment of FASB Statement No. 115" (hereinafter "SFAS No. 159"). This statement permits entities to choose to measure many financial instruments and certain other items at fair value. The objective is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. This statement is expected to expand the use of fair value measurement, which is consistent with the Board's long-term measurement objectives for accounting for financial instruments. This statement is effective as of the beginning of an entity's first fiscal year that begins after November 15, 2007, although earlier adoption is permitted. Management has not adopted this pronouncement nor has it determined the effect that adopting this statement would have on the Company's financial condition or results of operations.

Net operating losses (“NOL”) generated in Mexico may only be used to offset income generated in Mexico. As disclosed above, the Company generated NOLs in Mexico of approximately \$614,500 with an estimated tax benefit of \$179,000. Per Statement of Accounting Standard No. 109 – Accounting for Income Tax and FASB Interpretation No. 48 - Accounting for Uncertainty in Income Taxes an interpretation of FASB Statement No.109, when it is more likely than not that a tax asset cannot be realized through future income the Company must allow for this future tax benefit. We have fully allowed for the entire deferred tax asset relating to our Mexican subsidiary at June 30, 2006.

As of December 31, 2005 we had a cumulative net operating loss of approximately \$2,053,400 for which we have fully allowed. As of June 30, 2006 we have generated net income before taxes from our US operations of approximately \$357,000 (net of unrealized gains on marketable securities), and we believe that we will have ample net income throughout 2006 to utilize most of our historical NOLs. As such, we have recorded the full deferred tax benefit of \$600,000 relating to our US operations.

The acquisition price of the assets was \$700,000. We also capitalized an extension payment and an option to purchase payment, totaling \$22,000, making the effective price of the property grouping \$722,000.

At December 31, 2005, the final agreement for the San Miguel properties had not been finalized and we recorded the amount paid for the property of \$116,805 as Deposits. Upon finalization of the agreement in the first quarter of 2006, we capitalized the entire property and applied the payments recorded in Deposits to the note payable.

In August 2005, the Company entered an agreement through our Mexican subsidiary Amermin with Paramount Gold Mining Corp. ("Paramount") for the sale of an interest in a joint venture which includes the San Miguel mining concessions ("San Miguel joint venture"). As of June 30, 2006, Paramount had made all payments in cash or stock as the agreement indicated to purchase their 35% interest in the San Miguel joint venture, resulting in a gain on the sale of joint venture interest of \$1,065,500 to Tara Gold Resources Corp. The Company received total compensation of \$1,104,000 in common stock and \$400,000 cash (of which \$150,000 was refunded in the second quarter of 2006) as of June 30, 2006.

In May 2006, Paramount paid the note holder of the San Miguel concessions the remaining amount of the note due, resulting in the note holder becoming Paramount in the second quarter of 2006. Paramount also paid the value-add tax for the property at this time. When the property was paid in full, the Company contributed the asset to the San Miguel Joint Venture. As a result of Paramount paying the debt, the Company recorded a gain on extinguishment of debt of \$521,375 as of June 30, 2006.

As of June 30, 2006, due to the change in note holder status, the amount payable by the Company for the related debt for the San Miguel mining concession was \$128,218, including \$6,782 of imputed interest due Paramount (which is included in Notes payable). As of December 31, 2006, the Company and Paramount agreed in principle that Paramount had earned a 55% interest in the joint venture. On March 16, 2007, Paramount formally notified the Company that it had expended the required \$2.5 million of exploration development expenses to earn their 70% interest in the joint venture. These expenses have been fully reviewed by Company management and agreed to. As of March 31, 2007 the San Miguel joint venture ownership is 70% Paramount, 30% Tara Gold Resources Corp.

Both Paramount and Tara Gold Resources Corp. have joint control over the joint venture, with each partner one vote each as long as their original participation is maintained. At June 30, 2006 we have recorded minority interest of \$310,860 relating to Paramount and other minority interests in the mining concession.

- b. On December 7, 2005 the Company executed a provisional mining right purchase agreement for the right to one concession, known as “Santa Cruz”. The acquisition price of the asset is \$50,000 and is payable in 2006 and 2007.

At December 31, 2005, the final agreement for the Santa Cruz property had not been finalized and we recorded the amount paid for the property of \$11,758 as Deposits. Upon finalization of the agreement in the first quarter of 2006, we capitalized the entire property and applied the payments recorded in Deposits to the note payable. As of June 30, 2006, \$41,847 has been paid toward this property. The remaining payments against the note were paid in September 2007.

Included within the Paramount agreement noted above is an Area of Mutual Interest agreement. As the Santa Cruz property is in the same area of the San Miguel properties, Paramount exercised its right to include the Santa Cruz property in the San Miguel joint venture. The Santa Cruz property ownership percentage in the San Miguel joint venture is 70% Paramount, 30% Tara Gold Resources Corp. as of June 30, 2006 and the date of this filing.

- c. On May 12, 2005, the Company executed a provisional mining right purchase agreement with Minera Tres de Mayo, S.A. de C.V. for the rights to 4 concessions, known as “La Currita”.

The acquisition price of the asset is \$1,200,000 plus value-added tax of \$180,000 and is payable as follows:

2006	300,000
2007	<u>224,000</u>
	<u>\$ 524,000</u>

As of December 31, 2005, we also included finder’s fees of \$11,927 in the effective purchase price of the asset. As of June 30, 2006, we have imputed interest of \$18,326 remaining on the note, resulting in total asset capitalization of \$1,193,601 and total note amount of \$655,675. As of May 2007, the note and the related value added tax have been paid in full.

In May 2006, the Company entered an agreement through our Mexican subsidiary Amermin with Raven Gold Corp. **Note 5. Mining Concessions (cont'd)**

Under the original agreement, Raven was to pay cash and provide their common shares to purchase a 25% interest in the joint venture, plus provide a \$500,000 loan to the Company representing start up capital. Raven made the following payments beginning in quarter two 2006:

Under the new May 3, 2007 agreement the payments received under the initial agreement and the loan for start up costs were forfeited or forgiven. No refund from the Company was due to Raven. As the Company is not in the business of generating income from failed joint ventures, the Company will recognize the payments under the original Raven agreement as Other Income and recognize a gain on extinguishment of debt in the period when management determined that Raven was no longer participating in the venture according to the payment terms. Until this time, or until the joint venture partner has successfully earned its ownership percentage, the Company has deferred income/gain recognition and accounted for these payments as part of "Payments received from joint venture partners for options to purchase interests in mining properties" on the June 30, 2006 balance sheet. As of June 30, 2006 Raven did not have an ownership percentage in the La Currita joint venture.

Under the new May 3, 2007 agreement, Raven has performed the following to purchase 25% of the La Currita joint venture as of the date of this filing.

As of October 3, 2007, Raven has notified the Company of its intent to increase its percentage to 40% and has delivered an additional 500,000 common shares to the Company.

On January 2, 2007, the agreement was modified to adjust the payment schedule for the properties. The Company took possession of the property as of June 30, 2006 and as a result of the amended agreement has made all necessary payments through the date of this filing in 2007.

The acquisition price of the asset is \$4,000,000 plus value-added tax of \$600,000 and is payable as follows:

2007	\$ 1,850,000
2008	<u>2,150,000</u>
	<u>\$ 4,000,000</u>

As of June 30, 2006, we have imputed interest of \$265,801 remaining on the note, resulting in total asset capitalization and note amount of \$3,734,199.

In April 2006, the Company entered an agreement with Columbia Metals Corporation Limited (“Columbia”), for the sale of the Lluvia de Oro Gold property (“Lluvia property”). The letter agreement includes a right for Columbia to acquire 100 % of the property with a provision for the Company to receive 20% of the net cash flow. The purchase of the Lluvia property is not completed by Columbia unless all payments are made as out lined in the agreement. In the event that Columbia does not finalize the agreement with the Company, all payments made and received by the Company are non-refundable and the Company may resell the property to another party.

- Third quarter 2006: \$100,000
- Fourth quarter 2006: \$425,000; issuance of 1,000,000 common shares of Columbia

Until Columbia has made all payments in accordance with the agreement and earned their full right to the property or they trigger default in which we can record all funds as Other Income, we will record the funds received as part of the Mining Concession Sale Option Liability on our balance sheet. Upon successfully completing the term of the agreement we will then recognize a gain or loss on the sale of the mining concession.

- e. On March 27, 2006, the Company executed a mining exploration contract and a purchase and sale contract with limited ownership rights for the rights to 23 concessions, known as “Las Minitas”. In April 2007, the agreement was renegotiated, based on a geological study, to reduce the purchase price of the mining concessions and restructure the debt payments.

The amended acquisition price of the asset is \$2,750,000 plus value-added tax of \$412,500 and is payable as follows:

2007	\$ 250,000
2008	400,000
2009	550,000
2010	800,000
2011	<u>750,000</u>
	<u>\$ 2,750,000</u>

In addition to the \$2,750,000 above, we have capitalized \$173,913 in payments made toward the original agreement. In the new agreement this payment was not applicable to the remaining debt stream. We have included it with the asset capitalization as part of the effective purchase price of the mining concession.

As of June 30, 2006, we have imputed interest of \$371,279 remaining on the note, resulting in total asset capitalization of \$2,400,190 and total note amount of \$2,324,450. As of the date of this filing, all necessary payments in 2007 have been made.

Under the original agreement, Raven was to pay cash and provide their common shares to purchase a 20% interest in the joint venture. Raven made the following payments beginning in quarter two 2006:

- Second quarter 2006: \$250,000 for joint venture interest payment
- Third quarter 2006: \$150,000 for joint venture interest payment
- Fourth quarter 2006: \$75,000 for joint venture interest payment

No refund from the Company was due Raven. As the Company is not in the business of generating income from failed joint ventures, the Company will recognize the payments under the original Raven agreement as Other Income in the period when management determined that Raven was no longer participating in the venture according to the payment terms. Until this time, or until the joint venture partner has successfully earned its ownership percentage, the Company has deferred income/gain recognition and accounted for these payments as part of the “Payments received from joint venture partners for options to purchase interests in mining properties” on the June 30, 2006 balance sheet. As of June 30, 2006 Raven did not have an ownership percentage in the Las Minitas joint venture.

**Note 6. Deposits**

- a. On June 9, 2005, the Company executed a mining right joint venture contract for the rights to 4 concessions, known as “La Millionaria”. As of December 31, 2005, the Company paid \$100,000 in order to extract, exploit and commercializes the minerals and obtained the right to receive 60% of the net profits. Of this \$100,000, \$13,043 relates to value-added tax and \$86,957 has been accounted for in Deposits. As of June 30, 2006, we have \$121,131 recorded in Deposits relating to the La Millionaria property.

On October 23, 2006 the Company amended its June 9, 2005 agreement with Minas de Topago, S.A. de C.V. providing for the acquisition of the “La Millionaria” property in consideration for:

- Spending \$2,000,000 on the exploration and development of the property prior to October 23, 2008;
- Paying Minas de Topago \$414,000 in six installments, with the last payment due October 27, 2008; and
- Paying Minas de Topago 1% of the value of the proven reserves and 0.5% of the value of the probable reserves of gold on the property

**TARA GOLD RESOURCES CORP. AND SUBSIDIARIES**  
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

**Note 6. Deposits (cont'd)**

On October 23, 2008 the proven and probable reserves of gold on the property will be calculated. The proven ounces of gold will be multiplied by 1% the probable ounces of gold will be multiplied by 0.5%. The total ounces resulting from this calculation will then be multiplied by the average price of gold in the international market for the past twelve months. The resulting amount, subject to a limit of \$7,000,000 will be payable to Minas de Topago, S.A. de C.V. in accordance with the following schedule.

<u>Percentage of Total Amount Payable</u>	<u>Due Date</u>
5%	10-23-07
10%	10-23-08
20%	10-23-09
25%	10-23-10
40%	10-23-11

On October 23, 2008 the reserves on the property will be recalculated and revalued using the average price of gold in the international market for the prior twelve months. The amount due Minas de Topago will be adjusted if there is any difference from the previous valuation.

Due to the non-determinant acquisition price of La Millionaria at this time, we are accounting for the mining concession as a Deposit until such time as the acquisition price is fixed.

On October 24, 2006 the Company signed a non-binding letter of intent with Gold and Silver Minerals Corp. ("GSMC") providing GSMC the option to acquire a 25% interest in the La Millionaria property ("La Millionaria joint venture"). This agreement was canceled on June 29, 2007 due in part to lack of performance by GSMC.

Under the original agreement, GSMC was to pay cash and provide their common shares to purchase a 25% interest in the joint venture. GSMC made the following payments beginning in quarter two 2006:

- Second quarter 2006: issuance of 1,000,000 common shares of GSMC for joint venture interest which was received by the Company in October 2006
- Third quarter 2006: \$55,000 for joint venture interest payment
- First quarter 2007: \$50,000 for joint venture interest payment

**TARA GOLD RESOURCES CORP. AND SUBSIDIARIES**

Until this time, or until the joint venture partner has successfully earned their ownership percentage we will defer income/gain recognition and account for these payments as part of the Mining Concession Sale Option Liability on our balance sheet. As of December 31, 2006 GSMC did not have an ownership percentage in the La Millionaria joint venture.

- b. On January 30, 2006, the Company executed a mining right purchase contract for the rights to one concession, known as "La Estrella". The sales price of the assets is \$400,000 and is payable as follows:

## **ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND PLAN OF OPERATION**

In March 2002 Tara Gold's discontinued its software development business and was inactive until early 2004 when it began acquiring and developing oil and gas properties. In 2005 Tara Gold sold its oil and gas properties after it determined that these properties were not economical.

In May 2005 Tara Gold began acquiring mining properties. As of June 30, 2007 Tara Gold had an interest in eleven mining properties in Mexico, including three properties owned by Tara Minerals, a subsidiary of Tara Gold.

During the six months ended June 30, 2006 and 2005 Tara Gold did not have any revenues.

During the six months ended June 30, 2005 Tara Gold was relatively inactive, having discontinued its oil and gas operations in early 2005. Consequently, general and administrative expenses for this period were minimal.

During the six months ended June 30, 2006 Tara Gold was actively involved in investigating the feasibility of various mining properties, negotiating the terms for acquiring properties, and completing the acquisition of properties. As a result, general and administrative expenses during the six months ended June 30, 2006 were significantly higher than those during the six months ended June 30, 2005.

During the six months ended June 30, 2006 Tara Gold recorded a gain of \$521,375 due to the extinguishments of debt.

During the six months ended June 30, 2006 Tara Gold's operations used \$(833,262) in cash. During this same period Tara Gold invested \$219,683 in mining properties and equipment; made loan repayments of \$732,657, and made a deposit of \$36,526 toward the payment of a mining property. Tara Gold satisfied its cash requirements for the period primarily through:

- loans from related parties
- sale of its common stock
- payments from joint venture partners, and
- cash on hand at January 1, 2006

In May 2005 Tara Gold acquired one of its mining properties, the San Miguel prospect, from Minerva Navajoa, S.A. This prospect was purchased for \$700,000, which amount had been paid as of June 30, 2006.

In August 2005 Tara Gold signed an agreement with Paramount Gold Mining Corp. providing Paramount the option to acquire a 35% interest in the San Miguel prospect by:

- paying \$400,000 to Tara Gold;
- paying its proportionate share of all remaining payments to Minera Navojoa, S.A.;
- issuing 300,000 shares of its common stock to Tara Gold;

As of June 30, 2006 Paramount had made all required payments, in cash or stock, to earn its 35% interest in the San Miguel prospect and Tara Gold recorded a gain of \$1,065,000 on the sale of this interest.

As of June 30, 2006 or 2007 Tara Gold did not have any off balance sheet arrangements.

Tara Gold anticipates that its capital requirements for the twelve months ending June 30, 2008 will be:

Payments for mining properties	\$ 300,000
Mining exploration and development	\$1,000,000
General and administrative expenses	<u>\$ 700,000</u>
 Total	 <u>\$2,000,000</u>

The capital requirements shown above do not include any capital required by Tara Minerals, Tara Gold's subsidiary.

Tara Gold does not anticipate that it will need to hire any additional employees prior to December 31, 2007.

Tara Gold does not have any commitments or arrangements from any person to provide Tara Gold with any additional capital. If additional financing is not available when needed, Tara Gold may continue to operate in its present mode or it may need to cease operations.
